About Me

I'm a passionate programmer with experience in full-stack web development, seeking to build a successful career as a developer. I can effectively self-manage during independent projects, as well as collaborate as part of a team. I actively explore new technologies to enhance my work and expand my skill set. I am willing to bring forth a motivated attitude and a variety of skills.

Education

B.Tech in Computer Science and Engineering   *9.0 YGPA*

Academy Of Technology — Adisaptagram, West Bengal, India   *July 2019 - Present*

Julien Day School — Kalyani, West Bengal, India   *May 2017 - May 2019*

Indian Certificate of Secondary Education, Class 10   *85% Aggregate*

Julien Day School — Kalyani, West Bengal, India   *May 2015 - May 2017*

Projects

E-Class - An Online Education Platform   *Apr 2023 - Present*

- An online class application that allows teachers to connect remotely with students. This is an ongoing project.
- The project is built using NextJs and uses MongoDB database to persist data.
- **Tech Used:** HTML/CSS, TypeScript, NextJs, MongoDB, Prisma, RestAPI.
- **Github Link:** github.com/Rafael00X/E-Class

Ecommerce Website   *Dec 2022 - Feb 2023*

- An e-commerce website built using full-stack web development technologies. The website allows users to browse products and services online.
- The project consists of one frontend application built using ReactJs, and two backend restful services built using Spring Boot.
- The project uses MySQL database to store and persist data.
- **Tech Used:** HTML/CSS, JavaScript, ReactJs, Java, Spring Boot, Spring Data JPA, MySQL, JUnit, Mockito, RestAPI.
- **Github Link:** github.com/Rafael00X/Ecommerce-Frontend

Notechat - A Social Media Platform   *Oct 2021 - Jan 2022*

- A simple social media web application built using full-stack technology. Users can share posts, like and comment, or engage in real-time chat with other users in their contacts.
- The project consists of one frontend application built using ReactJs, and one backend service built using NodeJs.
- The project uses MongoDB database to store and persist data.
- **Tech Used:** HTML/CSS, JavaScript, ReactJs, NodeJs, MongoDB, Mongoose, SocketIO, GraphQL, Apollo Server/Client.
- **Github Link:** github.com/Rafael00X/NoteChat-Frontend

Skills

Programming Languages	Java, JavaScript, TypeScript, HTML/CSS
Libraries, Frameworks & Others	ReactJs, NextJs, NodeJs, Express, Prisma, Mongoose, Spring Boot, Spring Data JPA, JUnit
Databases	MySQL, MongoDB
Miscellaneous	RestAPI, GraphQL, Microservice
Tools	VSCode, IntelliJ, Postman, Git

Languages

English	Professional proficiency
Hindi	Professional proficiency
Bengali	Native proficiency
